

Private Finance Initiative – Road projects in Mexico

Date: 2005

Client: Secretaría de Comunicaciones y Transportes (SCT),
Government of Mexico

Country / Region: Mexico

Financial and economic advice provided as part of the cost-benefit analysis undertaken in the involvement of the private sector in two Private Finance Initiative road projects in Mexico. Work included advising on the applicability of new UK Public sector comparator methodology in the Mexican case and reviewing materials prepared for the risk quantification as part of the cost-benefit analysis for the PFI projects.
