

Title: Support to Centrica during Ofgem's RPI-X@20 Review

Date:

Client: Centrica

Country / Region: United Kingdom

Working with both the upstream and downstream arms of Centrica, CEPA has been advising on the appropriate general response to Ofgem's RPI-X@20 review. This has included working with the various teams as they prepare responses to consultation papers, preparation of presentations for stakeholder workshops and inputs to the CEO's involvement in the Ofgem expert panel. The work has involved drawing lessons for Centrica from other regulated sectors as well as investigating issues from a theoretical position. This work has been underway for about a year and is expected to continue for the coming year as Ofgem develops proposals and then final recommendations.
