

**Regulatory advice to a major power producer**

**Date:** Ongoing

**Client:** ESB International (ESBI)

**Country / Region:** United Kingdom

CEPA is retained to provide regulatory advice to a power project developer which is seeking to increase its UK market presence.

CEPA provides advice on all aspects of the regulatory frameworks governing the gas and electricity markets and regular bulletins updating on developments in regulatory, government and European policy. In particular our advice to date has focused on the contractual and charging frameworks applied to generators seeking to enter the market and has informed the client's assessment of development opportunities.
